

Civil No.: 2:23-cv-69-HSO-BWR

Case #

Date: 5/4/2023

JARED Andrus

Versus - Forrest County Jail.

On ground of civil action or dismissed of case.

I JARED Andrus... am writting the circuit court's of Hattiesburg M.S.. In regard's of how the kitchen is in some series vialation's of failing to comply with the medical staff's order on double portion's for underweight inmates like my self and for serving food that is days old and that taste like soap. The medical staff has told me that forrest county jail has their own paid ~~atation~~ dietitians from the out side for any of the medical's staff help pertaining to food portion's and nutritional needs for inmates. The food is also served cold 90% of the time. Sevefal of the decen't collectional officer's and the trustee's have ~~told~~ told me about these violation's as well and nothing is being done. I have seen kitchen inmates washing pot's outside with a hose were there are dead rat skelton's. I was on schudue for double portion's from the medical staff for over 2 week's before ever getting the collect amount of portion and nutritional needs from the kitchen staff. And now I am now getting black foam dead man tray's instead of 2 full state trays. By due process my rights where violated. This should have been and/or should be ground's for a civil and/or fedital suit, with dismissed of pending case.

Sincerely Submitted.
